PROFILE

I am a Computer Engineering student at KNUST with a strong front in frontend, a curious mind for cybersecurity, and a growing love for AI. Currently diving into ML, IoT, and secure systems—because building smart, secure tech beats guessing what's next

EDUCATION

Bachelor of Science in Computer Engineering **Expected November 2027**
Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

W.A.S.S.C.E (General Science) **January 2021 – September 2023**
Kumasi Academy, Kumasi, Ghana

Relevant coursework: Systems Programming, Networking (CCNA), Embedded Systems, AI Fundamentals, Data Structures.
Current Focus: RUST, CUDA, Cybersecurity, IoT, Machine Learning.

WORK EXPERIENCE

NONE

ACHIEVEMENTS/AWARDS

NONE

PROJECTS/RESEARCH EXPERIENCE

Investigating the effect of COVID-19 on Mobile Banking

- The study investigated the trajectory of transactions across various mobile banking platforms before and after the COVID-19 pandemic

Universal Payment Platform

Team Lead - Research and Backend Planning

- Led strategic development of a universal payment system with a focus on security and scalability.
- Oversaw market research and initiated architectural design for fintech integration in Ghana.

Improper Waste Management System (CENG PROJECT)

Lead Developer and UI designer

- Designed an AI-enhanced system with smart bin schematics and app interfaces for waste sorting and scheduling.
- Compiled a comprehensive Harvard-standard report with technical illustrations, tabulated findings and community survey data.

Credit Card Validator (LUHN algorithm)

Independent Project

- Developed a console application in C to validate credit card numbers using the LUHN algorithm
- Emphasized accurate validation and efficient input processing.

Islamic Madrasa School System

Solo Developer (In progress)

- Architecting a student administration and scheduling system tailored to local Islamic schools.

Forex Mentorship Program

Founder & Training Coach

- Provide structured mentorship to peers in forex trading, covering analysis, strategy and risk management.

Halaqatu Darul Taqwa

Administrative support and Designer

- Designed a professional student admission letter in LaTeX, optimizing for clarity and visual presentation.
- Manage intake processes and record-keeping for classes.

PROFESSIONAL TRAINING/ CERTIFICATION

Cybersecurity Hack me if you can Devtown

LEADERSHIP EXPERIENCE

- **Lead team member for various projects**

VOLUNTARY/EXTRA-CURRICULAR ACTIVITY

- **Jiyaat Khimar Collection(*Adviser)-*** Offer strategic guidance on branding, marketing, and technical processes for women's fashion and henna business.

SKILLS AND ABILITIES

TECHNICAL SKILLS

- **Languages and Frameworks:** C, C++, Python, HTML, CSS, Javascript, RUST(*learning)*, CUDA(*learning)*.
- **Frontend Expertise:** Strong command of responsive web design, UI/UX principles, and frontend frameworks
- **Operating Systems and Tools:** Kali Linux, Windows, Git, Visual Studio Code, Neovim, LaTeX, MinGW.
- **Cybersecurity Tools:** Basic penetration testing **via Kali Linux** and ethical hacking principles.

TECHNOLOGIES AND DOMAINS

- **Web & App:** React, REST APIs, Firebase, Figma(UI Mockups)
- **AI & ML:** Scikit-learn(*beginner*), TensorFlow(*basics),* OpenCV, Groq API and Stremslit UI.
- **IoT:** Early-stage prototyping and sensor integration.
- **Security: L**inux hardening, Kali toolset, secure coding practices.

REFEREE

Name: Prof. Emmanuel Kofi Akowuah
KNUST
Head of Department, Department of Computer Engineering
